## IMAGINE THE CITY OF 2045 IN GIJON

The diagram illustrates a geometric layout within a large rectangle. A horizontal line divides the rectangle into two main sections. The top section contains a square in the upper-left corner and a large rectangle in the upper-right. The bottom section is divided into three equal-width rectangles. The top-left square and the bottom-left rectangle share the same width. The top-right rectangle is wider than the bottom rectangles but has the same height as the top-left square. The bottom-right rectangle is the same width as the bottom-left rectangle but has the same height as the top-right rectangle.

This image shows a single sheet of white paper with horizontal blue or grey ruling lines. The lines are evenly spaced and run across the width of the page. There are no margins, text, or other markings on the paper.[illegible][illegible]

This image shows a blank sheet of white paper with horizontal ruling lines. The lines are evenly spaced and extend across the width of the page. There are no margins, text, or other markings on the paper.This image shows a full page of primary-ruled paper. It features ten sets of horizontal lines, each consisting of a solid top line, a dashed middle line, and a solid bottom line. The lines are evenly spaced across the entire page, providing a guide for letter height and placement. There are no margins, text, or other markings on the paper.[illegible]
